About the company:	<p>IBM: Government</p> <p>Whether reducing crime in communities, defending the homeland, or dealing with natural or manmade threats, your agency is faced with significant challenges. If you wait to address technology infrastructure concerns you may not be prepared to effectively respond to emergencies. How do you keep your physical and IT environments safe? Implementing security while ensuring logistical efficiency requires deep expertise. IBM provides the framework to help safeguard against disruptive threats by fostering new levels of visibility, accountability and resiliency.</p>
